

The **UK General Data Protection Regulation (GDPR)** was incorporated into British law on 25th May 2018, amended by UK General Data Protection Regulations Article 6 (1) (a) (b) and (e). It requires all organisations which hold and process personal data, to do so in line with the requirements of the GDPR.

One duty that the GDPR imposes is that an organisation must tell its tenants what information it holds about them, why it holds it and what it does with it. This may be done by means of a **privacy notice**.
